DMI reserves the right to substitute materials of a like kind. Features are subject to change without notice. All homes will be centered on home site from minimum required setback. Left or Right garage orientation of the home is determined by the power location. Site Prep Costs are determined by a site evaluation as costs vary from lot to lot

ITEMS NOT INCLUDED--Assessment or betterment fees, tree and rock removal, seawall, boat dock, pool, spa, deck. Impact fees are included as of the execution date of this purchase agreement. Any increases in impact fees after that date will be the responsibility of the buyer. Clearing of a standard lot is included in the base price, Site prep costs are determined by a site evaluation of the lot including a survey and elevation certificate (if in flood zone).

Well lots will include wells at standard depth. Deep wells will incur additional costs.

Lots requiring stem walls will require adds to the contract.
